Dear Sir:

The public meetings held under the ausplees of the Chamber of Commerce in the past to discuss issues have been largely attended, have interested the audiences present, and have generally resulted in decided good to the community. Easley, the former in favor and the latter opposed to such extension, after whose addresses the question will be open to general discussion.

It is unnecessary to emphasize the importance of this matter, but it may be said that while no plan of extension will be actually adopted or rejected on this occasion, the object of the Chamber is to have the subject agitated, so that finally some wise line of policy may be evolved, and the matter not allowed to go by default, as it has done for the last ten years, which, it is believed, has resulted in restricting the healthy growth of the city, and in the census enumeration of our population, placing us before the world for the next ten years in an unjust position of stargnation with respect to the increase of our population.

The request of Dr. Trevillian, surgeon at the Almshouse, for an increase from \$650 to \$1,50 was refused.

It was recommended that the pay of the
